- 16. Contact Information and Escalation

1. Introduction and Scope

TechNova Electronics ("TechNova", "we", "us") stands behind the quality of its products. This Warranty Policy explains the protection offered to customers ("you") if a product has a manufacturing defect or fails under normal use during the warranty period.

This policy applies to new products purchased from TechNova stores, the TechNova website, and authorised retailers and distributors in India. Products bought from unauthorised sellers, grey-market importers, or second-hand sources are not covered unless TechNova confirms otherwise in writing.

Warranty is provided in addition to, and does not replace, your statutory rights under the Consumer Protection Act, 2019 and other applicable laws.

2. Definitions

Term	Meaning
Warranty Period	The time from the date of purchase (or delivery, for online orders) during which TechNova will repair or replace a defective product at no charge.
Manufacturing Defect	A fault in materials or workmanship that exists when the product leaves the factory, or that appears under normal and intended use.
Normal Use	Use of the product for its intended household or personal purpose, following the user manual.
Authorised Service Centre (ASC)	A service location approved by TechNova to inspect and repair products.
Proof of Purchase	Original invoice, bill, or order confirmation showing product, serial number, date and seller.
DOA (Dead on Arrival)	A product that fails to function when first unboxed and powered on.
Replacement Unit	A new or certified refurbished unit of the same or equivalent model provided in place of a defective one.
Warranty Claim	A formal request raised by the customer for repair or replacement under this policy.
Physical Damage	Cracks, dents, bends, burns, broken parts or any visible damage caused by impact, pressure or misuse.
Liquid Damage	Damage caused by water, beverages or any moisture entering the product, shown by indicator or internal corrosion.

3. Warranty Coverage

During the Warranty Period, TechNova covers the cost of parts, labour and standard return shipping needed to fix a covered defect. Coverage applies to the original purchaser and only for the product and serial number shown on the Proof of Purchase.

3.1 What the warranty provides

- Free repair of the defective product using new or refurbished genuine parts.
- Replacement of the product if it cannot be repaired within the committed timeline, or if the same fault repeats (see Section 8).
- Free pick-up and delivery for products under pick-up-eligible categories (large appliances, televisions above 43 inches).
- Free software or firmware fixes where the defect is related to the original software supplied with the product.

3.2 What the warranty does not provide

- Cash compensation for inconvenience, loss of data, loss of income, or loss of use.
- Cover for accessories that wear out through normal use, unless listed in Section 4.
- Installation, demonstration, or reinstallation visits beyond the first free installation.

3.3 Types of warranty

Type	Description	Who provides it
Standard Limited Warranty	Default cover for manufacturing defects included in the product price.	TechNova
Extended Warranty	Optional paid cover that adds time after the standard warranty ends.	TechNova
Accidental Damage Protection (ADP)	Optional paid plan that covers drops, spills and screen breakage within plan limits.	TechNova
Component Warranty	Longer cover on a key component, for example compressor or panel, as listed in Section 4.	TechNova

4. Warranty Period by Product Category

The warranty period starts on the date of purchase shown on the invoice. For online orders it starts on the delivery date. The table below lists standard cover. The product box or invoice shows the exact period for your model.

Product Category	Standard Warranty	Extra Component Warranty	Notes
Smartphones	12 months	Battery: 6 months	Battery cover applies only to defects, not normal capacity loss.
Tablets	12 months	Battery: 6 months	Includes charger supplied in the box.
Laptops	24 months	Battery: 12 months	Keyboard and trackpad included in standard cover.
Smart TVs (LED / QLED)	24 months	Panel: 36 months	Panel cover applies to internal display defects only.
Refrigerators	24 months	Compressor: 10 years	Compressor cover excludes labour after year 2.
Washing Machines	24 months	Motor: 10 years	Drum and motor covered; consumables excluded.
Air Conditioners	12 months	Compressor: 5 years	Installation must be done by an authorised technician.
Microwave Ovens	12 months	Magnetron: 3 years	Commercial use voids warranty.
Headphones and Earbuds	12 months	None	Ear tips and cushions are consumables.
Smartwatches	12 months	Battery: 6 months	Straps are not covered.
Chargers, Cables and Adapters	6 months	None	Covered only when genuine TechNova accessories are used.
Small Appliances (mixer, kettle, iron)	12 months	Motor: 24 months	Jars, blades and heating plates covered for defects only.
Refurbished Products	6 months	None	Shown on the invoice as "Refurbished".

Important: A repaired or replaced product continues under the **remaining** original warranty period, or 90 days from the date of repair, whichever is longer. Replacement of a whole product starts a fresh warranty only where Section 8.4 states so.

5. Covered Issues (What Is Covered)

The following problems are covered when they occur during the Warranty Period under normal use:

Category	Examples of covered issues
Power and Charging	Product will not switch on; will not charge; battery fails to hold charge due to a defect; unexpected shutdowns not caused by damage.
Display and Screen	Dead pixels beyond the acceptable limit, flickering, vertical or horizontal lines, backlight failure without physical impact, touch not responding due to a fault.
Audio and Camera	No sound, distorted sound, microphone failure, camera not focusing, camera app failing due to hardware defect.
Performance	Persistent hanging, overheating under normal load, hardware-caused restarts, memory or storage faults.
Appliance Function	Not cooling or heating; abnormal noise from motor or compressor; water leakage from internal parts; door or lid mechanism failure from a defect.
Buttons and Ports	Power, volume or home button failure; charging port, headphone jack or USB port not working due to a manufacturing fault.
Connectivity	Wi-Fi, Bluetooth or SIM tray failures caused by hardware defects.
Software	Firmware faults and boot loops on the original factory software.
Build Quality	Paint peeling, body separation, loose hinges or screws not caused by misuse.

5.1 Defect threshold for displays

TechNova treats a display as defective if it has **more than 3 dead pixels** in total, or **more than 1 dead pixel in the centre zone**, or any visible line, patch or discolouration that is present at all times. Isolated bright or dim spots below this limit are within industry tolerance and are not treated as a defect.

5.2 Repeat failures

If the same covered defect appears again after repair, it remains covered for the rest of the Warranty Period. See Section 8.3 for when repeat failures qualify for replacement.

6. Non-Covered Issues (What Is Not Covered)

The warranty does **not** cover the following. If a product is inspected and found to have any of these conditions, the claim will be rejected and repair, if requested, becomes chargeable.

Exclusion	Details
Physical Damage	Cracked or broken screens, dents, bent frames, broken ports, damage from drops, impact or pressure.
Liquid Damage	Water, tea, coffee or any liquid entering the product. A triggered liquid-contact indicator or internal corrosion voids cover.
Misuse and Abuse	Use outside the intended purpose, overloading, use with wrong voltage, use of non-genuine chargers or accessories that cause failure.
Unauthorised Repair	Opening, repair or modification by anyone other than an Authorised Service Centre; broken or tampered seals and stickers.
Normal Wear and Tear	Scratches, fading, worn paint, loose buttons from age, reduced battery capacity over time.
Consumables	Batteries after the battery cover period, filters, bulbs, ear tips, straps, belts, gaskets, blades, cushions.
Software Issues Not Caused by Defect	Viruses, malware, third-party apps, rooted or jailbroken devices, custom firmware, forgotten passwords or locks.
External Causes	Fire, flood, lightning, power surges, pests such as cockroaches or rats, rust from humid or coastal exposure beyond normal levels.
Cosmetic Issues	Marks, scratches or dents that do not affect function, and which are reported after the delivery inspection window.
Serial Number Issues	Missing, altered, or unreadable serial number or IMEI.
Commercial Use	Use in shops, offices with heavy daily load, rental, or industrial settings unless the product is sold as a commercial model.
Improper Installation	Installation, wiring, plumbing or earthing not done as per the manual or not by an authorised technician (where required).
Acts of Nature and Transport	Damage in transit when the customer arranged their own transport.
Data Loss	Loss of photos, files, apps or settings. TechNova is not responsible for backups.

Note: If a product with a non-covered fault is still within the warranty period, TechNova may still repair it as a **paid service**. A cost estimate is shared before any work begins, and no work is done without your approval.

7. Warranty Claim Process

Follow these steps to raise a claim. Most claims are resolved without visiting a store.

Step 1: Check eligibility

Confirm that the product is within the warranty period (see Section 4) and that you have your Proof of Purchase and product serial number or IMEI.

Step 2: Try basic troubleshooting

Restart the product, check cables and power, update software, and follow the troubleshooting guide in the user manual or on the TechNova support website. Many issues are solved at this stage.

Step 3: Raise a claim

- Call Customer Care on the toll-free number (Section 16), or
- Raise a request on the TechNova website or mobile app under Support > Warranty Claim, or
- Visit the nearest Authorised Service Centre with the product and invoice.

Provide: name, phone, email, address, invoice copy, serial number, a description of the issue, and photos or a short video of the problem.

Step 4: Receive a claim number

A Service Request ID (SR number) is issued, for example **SR-2026-004512**. Quote it in all future communication.

Step 5: Inspection and diagnosis

The product is checked at your home (large appliances), at an ASC, or at a TechNova repair hub after pick-up. Inspection takes 1 to 3 working days. You are told whether the issue is covered.

Step 6: Repair or replacement

If covered, the product is repaired or replaced according to Section 8 at no cost. If not covered, you receive a written quote and may accept or decline.

Step 7: Return and closure

The product is returned to you with a job sheet listing what was done. Please check it and sign the delivery acknowledgement. The claim is then closed.

Documents required

Document	Mandatory?	Remarks
Original invoice or bill	Yes	Must show date, model, seller and serial number.
Warranty card (if supplied)	Recommended	Not needed when the invoice is clear.
Photo ID	At pick-up	For identity verification.
Photos or video of the issue	Recommended	Speeds up diagnosis.
Original accessories	As requested	Charger or remote may be needed for testing.

8. Repair and Replacement Conditions

8.1 Repair first

TechNova's first remedy is repair. Repairs target completion within the timelines in Section 12. Genuine new or refurbished parts of equal quality may be used. Replaced parts become the property of TechNova.

8.2 When a replacement is offered

A replacement unit is offered when **any** of the following applies:

- The product is declared **Dead on Arrival** within the DOA window (Section 9).
- The product cannot be repaired because spare parts are not available or the fault is beyond repair.
- The same defect has occurred **3 or more times** and has not been fixed after 3 repair attempts for the same issue.
- The product has been under repair for **more than 30 days in total** in a single claim, for reasons within TechNova's control.
- The product has had **4 or more different covered failures** within the first 12 months.

8.3 Replacement rules

Condition	Rule
Replacement model	Same model and colour where available. If not available, an equivalent or higher model is provided. No cash difference is charged to the customer.
Replacement condition	New unit for DOA and early failures. New or certified refurbished unit for later claims.
Old product	Must be returned with all accessories. A missing accessory may be charged at its standard price.
Customer choice	If an equivalent model is not available, you may choose a refund (Section 8.5) instead.
Pro-rata deduction	No usage deduction applies for replacement within the first 12 months. After 12 months, a pro-rata adjustment may apply only if you choose an upgrade to a higher model.

8.4 Warranty after repair or replacement

- **After repair:** the remaining original warranty continues, with a minimum of 90 days on the repaired part.
- **After replacement within 30 days of purchase:** a fresh full warranty starts from the replacement date.
- **After replacement later than 30 days:** the remaining period of the original warranty applies, with a minimum of 6 months.

8.5 Refund

A refund is given only when a replacement is not possible or when you choose it in place of an equivalent replacement. Refunds go to the original payment method within **7 to 10 working days** after the product is received and verified. For cash purchases, the refund is made by bank transfer.

8.6 Cost of paid repairs

When a fault is not covered, charges for parts, labour and transport are shared in the estimate. Paid repairs carry a **90-day service warranty** on the repaired part.

9. Dead on Arrival (DOA) and Early Failure Policy

If your product does not work when first used, or has a defect at delivery, a faster process applies.

Period from Delivery	Outcome if product is confirmed defective
0 to 7 days	Replacement with a new unit (DOA). A refund is available if the same model is unavailable.
8 to 15 days	Replacement with a new unit if a hardware defect is confirmed by an ASC or technician report.
16 to 30 days	Repair first. Replacement if not repairable within 7 days or if the fault repeats.
31 days to end of warranty	Repair under warranty. Replacement only under Section 8.2 conditions.

9.1 Requirements for DOA

- Report the issue within **7 days of delivery** through Customer Care, website or app.
- Keep the original box, packaging, accessories and invoice in good condition.
- Share unboxing photos or video if the product arrived physically damaged. Damage in transit must be reported within 48 hours of delivery.
- The product must have no signs of misuse or physical damage.

9.2 Wrong, missing or damaged items

If you receive a wrong model, a missing accessory or a visibly damaged package, report it within **48 hours** of delivery. TechNova will arrange a free exchange or send the missing item.

10. Extended Warranty and Protection Plans

You may buy an Extended Warranty or Accidental Damage Protection (ADP) within **30 days of purchase** (or before the standard warranty ends for Extended Warranty, subject to inspection).

Plan	Adds	Typical Cover	Limits
Extended Warranty (1 year)	12 months after standard warranty	Same as standard warranty	Cannot be bought after the standard warranty ends.
Extended Warranty (2 years)	24 months after standard warranty	Same as standard warranty	Available for laptops, TVs and large appliances.
ADP (1 year)	12 months from purchase	Drops, spills, screen breakage, power surge	Maximum 2 claims per plan year; deductible may apply.
Combo (Extended + ADP)	As chosen	Both covers	Combined limits shown on the plan certificate.

11. Warranty Transfer, Registration and Proof of Purchase

11.1 Registration

Registering your product is optional but recommended. Register within 30 days at the TechNova website or app using your serial number and invoice. Registration is **not required** for warranty to be valid, but it makes claims faster. The invoice remains the main proof.

11.2 Proof of purchase

- Digital invoices (email or app) are accepted.
- If you lose the invoice, TechNova may use sales records linked to your phone number or the serial number. Warranty then starts from the manufacturing or dispatch date, which may reduce the cover.
- Invoices that are altered or unclear will not be accepted.

11.3 Transfer of warranty

The standard warranty may be transferred once to a new owner for the remaining period if the product is sold with the original invoice and the new owner registers within 15 days. Extended Warranty and ADP plans are transferable only with written approval from TechNova.

11.4 Products bought as gifts

Warranty is available to the person who holds the invoice or gift receipt. Gift recipients should contact Customer Care to register the product with the purchaser's order number.

12. Service Timelines and Costs

Service Type	Target Timeline	Cost to Customer (if covered)
First response to a claim	Within 24 hours	Free
Technician visit (large appliances)	Within 48 hours in cities; 72 to 96 hours in other areas	Free
Diagnosis at service centre	1 to 3 working days	Free
Standard repair	Up to 7 working days after diagnosis	Free
Repair needing spare parts	Up to 15 working days	Free
Repair needing imported parts	Up to 30 working days	Free
Replacement dispatch	Within 5 to 7 working days of approval	Free
Refund processing	7 to 10 working days after verification	Free
Pick-up and return (eligible products)	Included in repair timeline	Free
Courier for small products from non-serviceable pin codes	As per courier	Free (prepaid label provided)

Timelines are targets and may be longer during festivals, natural disasters, strikes or lockdown conditions. Where possible, TechNova will offer a status update every 3 working days.

13. Customer Responsibilities

- Keep the original invoice and serial number safe.
- Use the product as described in the user manual and with genuine accessories.
- **Back up your data** before giving any device for service. Service may erase data.
- Remove SIM cards, memory cards, screen locks, Find My Device, iCloud or Google account locks and passwords before submission.
- Remove personal accessories such as cases, screen guards or stickers.
- Provide accurate contact details and be available for technician visits.
- Do not open or repair the product yourself or through unauthorised shops.
- Report defects promptly. Continued use of a faulty product can cause further damage that may not be covered.

14. Limitation of Liability and Legal Notes

- TechNova's liability is limited to repair, replacement or refund of the defective product, up to the original purchase price.
- TechNova is not liable for indirect, incidental or consequential damages, including loss of data, profit, business or personal time, to the extent permitted by law.
- Nothing in this policy limits your rights under the Consumer Protection Act, 2019.
- TechNova may update this policy. Changes apply to purchases made after the effective date. Existing customers keep the policy that applied when they bought the product.
- Disputes are subject to the jurisdiction of courts in Hyderabad, Telangana, subject to consumer forum rights.
- Fraudulent claims, such as forged invoices or false defect reports, will be rejected and may lead to legal action.

15. Frequently Asked Questions (FAQ)

Q: Is my product still under warranty?

A: Check the purchase date on your invoice and compare it with the period in Section 4. Most phones, tablets, headphones and small appliances have 12 months, and laptops, TVs, refrigerators and washing machines have 24 months.

Q: When does the warranty start?

A: It starts on the date of purchase from a store, or the delivery date for online orders.

Q: Does the warranty cover a cracked screen?

A: No. Cracked or broken screens are physical damage and are not covered by the standard warranty. They may be covered if you bought Accidental Damage Protection.

Q: My phone fell in water. Is that covered?

A: No. Liquid damage is excluded from the standard warranty. ADP may cover it if you bought the plan and the claim is within plan limits.

Q: My TV has lines on the screen and I never dropped it. What should I do?

A: Lines or patches that appear without physical impact are usually a panel defect and are covered. Raise a claim with photos and your invoice. Panels have 36 months of cover.

Q: My battery drains faster than before. Is it a defect?

A: Gradual loss of capacity over time is normal wear and is not covered. A sudden drop, swelling, overheating or failure to charge within the battery cover period is treated as a defect.

Q: My product stopped working on the day I opened it. What are my options?

A: This is a DOA case. Report within 7 days of delivery. You will get a new replacement, or a refund if the model is unavailable.

Q: How long does a repair take?

A: Standard repairs take up to 7 working days after diagnosis. Repairs needing spare parts can take up to 15 working days, and imported parts up to 30 working days.

Q: Will I get a replacement if my product is repaired many times?

A: Yes. If the same defect repeats after 3 repair attempts, or the product is under repair for more than 30 days, you qualify for a replacement.

Q: Do I have to pay for pick-up?

A: No. Pick-up and return are free for eligible products when the claim is covered by warranty.

Q: I lost my invoice. Can I still claim?

A: Contact Customer Care. TechNova may find your purchase using your phone number or serial number. The warranty may then be counted from the dispatch date.

Q: Is the warranty valid if I bought from a third-party seller?

A: Only if the seller is an authorised TechNova retailer. Grey-market and unauthorised sellers are not covered.

Q: Does repair by a local shop void my warranty?

A: Yes. Repair or opening by an unauthorised person voids the warranty for the affected parts and may void it entirely.

Q: Is my data safe during repair?

A: TechNova does not guarantee data safety. Back up your data and remove locks before submitting the product.

Q: What happens if my claim is rejected?

A: You receive a written reason. You can accept a paid repair estimate, collect the product without repair, or escalate under Section 16.

Q: Can I get a refund instead of a replacement?

A: Only when a replacement is not available or you prefer a refund in place of an equivalent replacement. Refunds take 7 to 10 working days after verification.

Q: Is the warranty extended while my product is in service?

A: A repaired product keeps its remaining warranty, with at least 90 days on the repaired part. The warranty period is not otherwise paused.

Q: Are chargers and cables covered?

A: Yes, for 6 months, if you used genuine TechNova accessories and there is no physical damage, bent pins or burn marks.

Q: Can I transfer my warranty if I sell my product?

A: Yes, once, for the remaining period, with the original invoice. The new owner must register within 15 days.

Q: Does the warranty cover products used in a shop or office?

A: Normal office use is allowed for IT products. Heavy commercial use of household appliances voids warranty unless the product is sold as a commercial model.

16. Contact Information and Escalation

Channel	Details	Hours
Customer Care (toll-free)	1800-000-0000	Monday to Saturday, 8:00 AM to 8:00 PM IST
WhatsApp Support	+91 90000 00000	Monday to Saturday, 9:00 AM to 7:00 PM IST
Email	warranty@technova-example.com	Reply within 1 working day
Website and App	www.technova-example.com/support	24 x 7
Authorised Service Centres	Locate using pin code on the website or app	10:00 AM to 7:00 PM, closed on Sundays and public holidays

16.1 Escalation matrix

Level	Contact	Response Time
Level 1	Customer Care executive	Within 24 hours
Level 2	Service Manager (escalations@technova-example.com)	Within 48 hours
Level 3	Grievance Officer (grievance@technova-example.com)	Within 7 working days
External	National Consumer Helpline 1915, or the District Consumer Disputes Redressal Commission	As per law

16.2 Quick reference summary

Question	Short Answer
Standard warranty period	6 to 24 months depending on product category (see Section 4).
DOA window	7 days from delivery for new replacement.
Not covered	Physical damage, liquid damage, misuse, unauthorised repair, wear and tear, consumables.
Replacement trigger	DOA, unrepairable, same fault after 3 repairs, or over 30 days under repair.
Documents needed	Invoice with serial number, ID, photos of the issue.
Standard repair time	Up to 7 working days after diagnosis.
Refund time	7 to 10 working days after verification.

End of Warranty Policy. The company name, phone numbers and email addresses in this document are sample data created for demonstration and RAG testing. Replace them with your real business details before use.
